

CHRISAL PROBIOTIC HEAVY DUTY CLEANER INSTRUCTIONS

WELCOME TO THE WORLD OF CHRISAL – GREEN PROBIOTIC POWER..!

DIRECTIONS:

Shake the concentrate before adding to water.

Use Chrisal's Automated Dilution Unit - or if diluting by hand, for heavy grime and for Animal & Poultry Housing, mix 5 to 8 oz. of Chrisal per gallon of warm water.

Spray on, but best if used with a foamer.

Let sit ten minutes, scrub, then hose off with a pressure hose using with warm water (not to exceed 140°F).

For normal areas, use 2.5 oz. of concentrate per gallon of water for most industrial use - and rinse after if needed. For lighter use - and for glass, you can dilute up to 100 to 1 (1.2 oz. per gallon of water).

Apply with a spray bottle and wipe off, then use a dry cloth or MicroCloth for best results.

For large floor areas use with a mop & bucket.

- **TOTALLY SAFE – NO HARMFUL FUMES - NO GLOVES NEEDED..!** You don't have to worry about using gloves, aprons or masks, with Chrisal...
- The concentrate has a long shelf life of over four years. Please keep at room temperature and out of direct sunlight, do not exceed 122°F or freeze. Always shake well to mix before using for diluting.
- **Note:** once you dilute PIP for use, the mixed product is good for a week. Since it is so economical to use and only cost pennies per liter, just pour down the drain any unused portions to keep your garbage disposal & pipes clean weekly and make a new bottle of PIP Power.
- **Remember, Each Gallon Of Chrisal Concentrate Makes From 20 To 100 Gallons Of Useable Cleaning Product - That Replaces Almost Every Other Cleaner In Your Facility..!**
