

## HOW TO USE CHRISAL'S STABIOTIC™ PROBIOTIC HEALTHCARE ALL-PURPOSE, FLOOR & HEAVY DUTY HOME CLEANERS

### WELCOME TO THE WORLD OF CHRISAL – GREEN PROBIOTIC POWER..!

- **Dilution Instructions:**

YOU GET UP TO A FULL 100 TO ONE DILUTION WITH ALL CHRISAL STABIOTIC™ CLEANERS..!

Always shake the concentrate well before diluting. If you make a liter spray (1L) bottle (please note to add cold or warm (not hot) tap water first to prevent over foaming), then put in 10 ml of Chrisal StaBiotic™ Cleaners. Shake again to mix and use. That is it. *Note: for your convenience, the 8 ounce bottle caps measure approximately 5 ml each – so use just 1 cap for 16 ounce bottles.*

FOR FLOORS, just use 1+1/4 ounces (37ml) of

StaBiotics™ per gallon, then wash as normal.

**CHRISAL STABIOTIC™ CLEANERS ARE INCREDIBLY POWERFUL... AND LESS IS MORE..!** So, **Save Your Chrisal Cleaner & Your Money.** Note: Only use more for really filthy areas and then rinse after. Chrisal is as extremely powerful as it is gentle - and will provide a great cleaning experience and increased your protection against harmful contaminants.

- **To use: JUST SPRAY ON AND WIPE OFF..!**

- **EACH SPRAY KEEPS WORKING & PROTECTING YOU FOR UP TO THREE DAYS..!**

When you clean with Chrisal, it will both keep protecting you and cleaning for you for up to three days after each application..! Surfaces will keep getting brighter and cleaner with each use.

- **TOTALLY SAFE – NO HARMFUL FUMES - NO GLOVES NEEDED..!** And you don't have to worry about using aprons or masks either, with Chrisal - it is totally safe for your skin. The only effect in using Chrisal without gloves should be that your rings will appear cleaner and brighter...

- The concentrate has a long shelf life of over four years. Please keep at room temperature and out of direct sunlight, do not exceed 122°F or freeze. Remember to always shake well to mix the probiotics before using for diluting, as they tend to settle over time.

- **Note:** once you dilute the concentrate for use, the mixed product is most effective for a week and since it is so economical to use and only costs pennies per liter, so once a week just pour any unused portions in your garbage disposal and pipes to keep them clean & odor free. Then rinse and make a new bottle of Chrisal's StaBiotic™ solution.

**REMEMBER, JUST ONE 8 OUNCE BOTTLE OF ECONOMICAL CONCENTRATE MAKES 25 LITERS OF USEABLE CLEANING PRODUCT - THAT REPLACES ALMOST EVERY OTHER CLEANER IN YOUR HOME OR FACILITY..!**

Now Also Available In  
Green Seal Formulation
